Buckland Creek Restoration

Project Phases

1. Buckland Creek Restoration at 12 Corners
2. Student Education and Participation
3. Community Education and Outreach
4. Watershed Restoration Community Participation

This informational material addresses only the “Watershed Restoration Community Participation” Phase of the Project.

Buckland Creek Restoration

4. Watershed Restoration Community Participation - Project Goals

- Install Residential *Green Infrastructure* Within Buckland Creek Watershed
 - Mark Storm Drains
 - Rain Barrels
 - Rain Gardens
 - Stream Protection

Buckland Creek Restoration

4. Watershed Restoration Community Participation – Project Goals (cont'd)

- Temporary front yard signs placed at up to 50 participating homes
- Educational signs at 6 pedestrian / creek intersections
- Neighborhood green infrastructure tour in Summer 2013

Buckland Creek Restoration

The Buckland Creek Restoration Project provides Community Participants with:

- a complete rain barrel kit to be assembled by participant
- up to 20 plants for rain gardens and stream bank protection
- guidance on rain barrel construction and rain garden design
- assistance with installing the green infrastructure practice, if necessary

Buckland Creek Restoration

Watershed Community Participation Participant Expectations

- Register for a green infrastructure (GI) practice and live within Buckland Creek Watershed
- Rain garden site assessed and found suitable by local Soil and Water Conservation District or Project Staff / Partners
- Attend a Rain Barrel Workshop, if applicable, and adhere to guidance provided for stream protection or rain gardens
- Install and maintain your green infrastructure practice through 10/31/13

Buckland Creek Restoration

Watershed Community Participation

Participant Expectations (cont'd)

- Possible lawn sign on your property through 10/31/13
- Possible Community Green Infrastructure Tour Stop, Summer 2013
- Possible publicity of the GI on your property
- Installation verification by Project Staff or Partners for grant documentation
- Receive H₂O Hero Message and be familiar with Project Materials, including Expectations
